# THE IMPORTANCE OF PROFESSIONAL LEARNING

**We believe that professional learning is an investment, not a cost**

We believe that when the right technologies are placed into the hands of confident and knowledgeable teachers, learning becomes inspirational and accessible for all. Investment in ongoing and measurable professional learning is key to achieving positive transformation, both in and out of the classroom. Our team of Apple Professional Learning Specialists are able to design and deliver tailor-made professional development, focussed on the effective use of Apple technologies to enable digital transformation, both in and out of the classroom.

Our professional learning specialists can empower your school to use Apple technologies to:

- **Enhance the quality of teaching, learning, assessment, and inclusion**
- **Develop 21st-century skills across the curriculum**
- **Inspire life-long learning**
- **Reduce teacher workload**

## Did you know...

**96%**

of teachers rated themselves as extremely satisfied with the quality of professional learning they received.

The Launch Day is a full day of on-site professional learning included within the Mini BOS subscription package. A Launch Day is designed to give your teachers the best possible start with iPad in the classroom and inspire innovative ideas for how iPad can enhance teaching, learning and assessment. The Launch Day takes place on your school site and can last up to 8 hours. It can be delivered as a dedicated INSET day or as part of a normal school day by mixing and matching the professional learning formats featured on page 6.

***Launch your iPad for learning programme with a tailor-made professional learning session delivered by our Apple Professional Learning Specialists.***

# DESIGNING YOUR LAUNCH DAY

When designing a professional learning programme we follow a simple and effective process, which ensures that every school receives targeted and focussed sessions designed to meet their specific requirements.

1

## Initial Consultation

One of our Professional Learning Specialists will contact your school and provide an initial consultation, where the priorities for professional learning are established and the measurements of success are determined.

2

## Teacher Tech Skills Analysis and Programme Proposal

Your dedicated JTRS trainer will provide your teachers and learning support staff with access to a simple online skills survey, which takes around 5 minutes to complete. The feedback gathered will inform the creation of a tailor made Launch Day proposal, which consists of various professional learning formats. You can find out more about how our professional learning formats on page 6.

# FORMATS OF PROFESSIONAL LEARNING

To ensure that we provide professional learning that is both relevant and beneficial to teachers, we deliver sessions in a range of innovative formats. These formats can be mixed into a full day of professional learning and take place during a normal school day, with minimal disruption to timetable or teacher cover. This is why we provide **over 80% of our sessions** as full days during term time.

## In-Class (Lesson Modelling & Team Teaching)

Example lessons for teachers to observe or co-teach utilising iPad in the classroom with your pupils. We provide copies of the lesson plans at the end of each session. Classroom Modelling provides meaningful CPD that can take place during a normal school day with no disruption to timetable or teacher cover.

## Coaching & Mentoring

1:1 training or small group training for teachers with personalised CPD objectives, including the achievement of the Apple Teacher award.

## Curriculum Planning

Support with the development of long-term plans and schemes of work, to effectively integrate effective technology use across the curriculum.

## Teacher Sessions

Pedagogical and Curriculum based workshop sessions for teachers, which usually take place after school or as part of dedicated INSET days.

# MINI BOS UPGRADE: +£1 PER MONTH\*
